Hi, all. I don't believe I've heard back from anyone but Carolyn Cox on the draft news release and wanted to make sure you didn't have any comments. We're planning to send it today. Attached is the latest version that reflects my discussion with Carolyn. I've also added a link to DOH's website and simplified the description of blue baby syndrome in the broadcast version at the bottom.

I'll need to hear back from you right away. Our links are set to go live at 1, and we're scheduled to issue the news release at 1:30.

Thanks.

Hello, John. I just got your contact information from Steve Cox in Tacoma. Hoping you can take a look at this. Thanks.

Regards,
Katie Skipper

Subject: Courtesy review of draft news release on nitrate summary report

Hi, all. Attached is a draft Ecology news release for our summary report on nitrate in groundwater in the Sumas-Blaine aquifer. I'm sending this to you as both a heads up, and to give you an opportunity to review.

We'd like to post our documents Monday, so if you could take a look at this and get back to me with any comments or suggestions by the end of the day tomorrow, that would be much appreciated.

John, would you be willing to be a contact for health related questions? You'll see a spot at the end of the release for your contact information.

Thanks,
Katie
